

**Protect Your Customer's Investment
with this Simple Upgrade**

Biotube® Low-Head Pump Vault Package

Orenco's Biotube Low-Head Pump Vault (LHV) Package offers a complete solution for filtering and pumping effluent from a septic or dose tank to an on-site wastewater disposal system. The package includes a **pump vault** (46 inch or 60 inch) that houses an **effluent filter**, **low-head effluent pump**, **float switch assembly**, and **discharge assembly**. This all-in-one package also includes a **control panel** and **splice box**.

Why Choose the Complete Biotube LHV Package?

SUPERIOR FILTRATION

Our patented Biotube filtration provides a **2/3 reduction** in TSS, keeping large solids in the tank and significantly extending the life of a drainfield.

PUMP PROTECTION

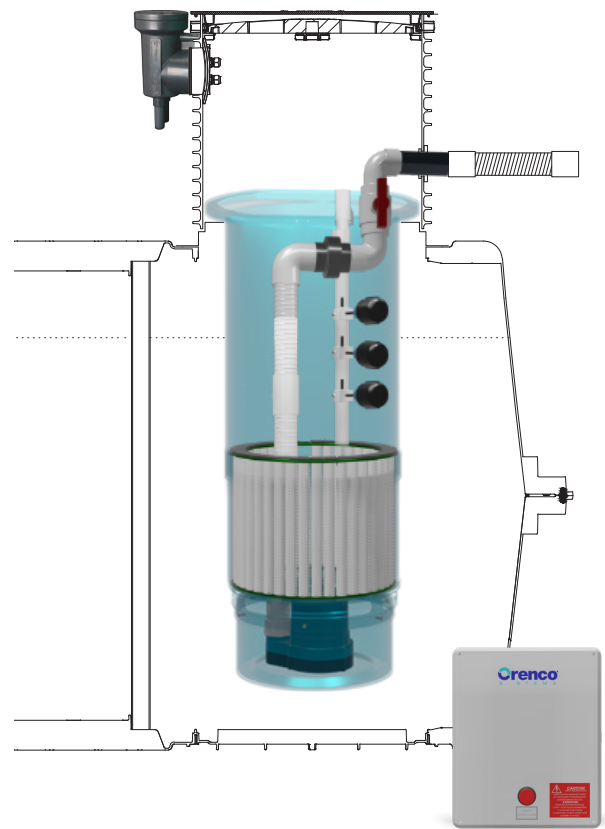

Because it surrounds the pump, the effluent filter provides **complete pump protection**.

EASY INSTALLATION & MAINTENANCE

The LHV offers **easy, drop-in installation** and hassle-free maintenance.

RELIABILITY

The pump comes with a **3-year warranty** for your customer's peace of mind.

Effluent Pumping System: Simplex LHV inside Infiltrator™ CM-1060 Tank

Orenco's all-in-one solution goes above and beyond a basic pump-on-a-block.
