

# Wiring Just Got A Whole Lot Easier

## ClickTight™ Controls Package

### Simple. Secure. Smart.

Orenco's ClickTight Controls Package is the complete, integrated package for making fast, accurate, secure wiring connections in onsite wastewater systems. It greatly reduces the risk of electrical failures due to moisture, faulty splices, improper terminal wiring, or corrosion.

Connect a control panel, a pump, and up to four float switches with the ClickTight Controls Package – no need for splice boxes or watertight wire nuts.

With ClickTight, you can ...

- Make quick and secure connections
- Reduce common wiring errors with the use of color-coded wires and terminals
- Troubleshoot pump and float issues in minutes

Make it easier on yourself with the ClickTight Controls Package! To learn more, contact an Orenco Sales Representative at **(800) 348-9843** or **+1 (541) 459-4449**.

### The ClickTight Controls Package:

ClickTight

ClickTight control panel
