DuraFiber® Enclosures

WIDE RANGE OF SIZES
SECURE AND SAFE
SUPER STRONG
CORROSION RESISTANT

Fiberglass-reinforced polymer (FRP) DuraFiber enclosures from Orenco Composites provide the ultimate protection and security for your equipment.

Sized for smaller applications, such as above-ground valve vaults, pump station controls, and metering and chemical feed equipment, the enclosures are lightweight, durable, and corrosion resistant with a high strength-to-weight ratio.

Orenco's fiberglass products are designed not to rot, rust, dent, or conduct electricity. They are suitable for continuous outdoor exposure, making them ideal for a wide range of environmental conditions. Plus, Orenco Composites' enclosures are highly customizable for your specific application.
