

Secure Access Points with **FIBERLAST™ LIDS**

Orenco's 24" FiberLast Lid

Orenco's FiberLast FLL Access Lids provide secure, durable, watertight coverings for ribbed PVC, HDPE, and Orenco FRP risers, pump basins, and access ports. They feature a non-skid surface and a choice of mounting hardware.

Why should you try our FiberLast lids? For so many reasons ...

- Load rating up to 2500 lbs (not recommended for vehicular traffic)
- Flat-style flanges that provide easy access and clean, flush-to-grade installation
- EPDM gaskets for watertight riser-to-lid connections
- Waterproof surface that's corrosion resistant and UV resistant
- Non-skid surface and molded-in caution statement
- Four stainless steel hex-head screws for securing the lid (optional button-head cap screws and hex key wrench available)

Contact your local distributor for details or call Orenco at (541) 459-4449.
