Carbon Filters

Applications
Orenco Carbon Filters reduce the odor of sewer gases in passive airflow venting applications.

General
The Orenco Carbon Filter attaches to vent pipes with a slip fit. The weather cap is removable to allow replacement of the carbon package. Carbon replacement frequency will be based on the volume and strength of gases being scrubbed by the filter. Carbon recharge packages, adapter bushings, and custom sizes are available.

Standard Models
CF3, CF4, CF6

Product Code Diagram
CF
Filter diameter:
3 = 3"
4 = 4"
6 = 6"
Carbon filter

Materials of Construction
Weather Cap: ABS (CF3, CF4), Fiberglass (CF6)
Carbon: Granular activated impregnated carbon
Housing: UV-resistant PVC
Screen Plate: Polyethylene
