

# TANK SHIELD™

## SAFETY BARRIER

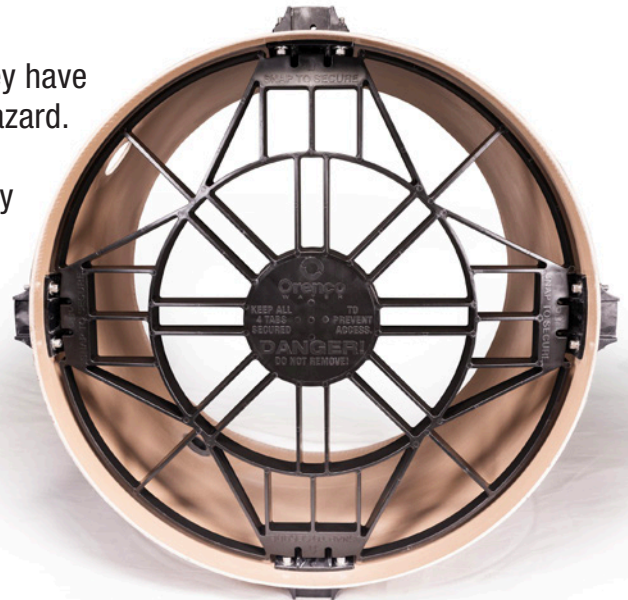

### Tank Shield (24" and 30")

Onsite systems are a great way to treat wastewater, but they have to be properly maintained. If not, they can pose a serious hazard. Making sure that septic tank access points are secure and that access equipment isn't damaged or degraded is literally a life-or-death issue.

Orenco's Tank Shield is a secondary safety barrier designed to prevent unintended entry and accidental falls into tanks and pump basins.

#### Tank Shield ...

- Is easy to install and remove
- Can be installed in new or existing risers
- Is molded of co-polymer polypropylene for exceptional durability
- Can be installed over pumping equipment
- Ships in a kit with mounting brackets and hardware
- Handles a load rating of 250 lbs (113 kg)
- Is compatible with Orenco's 24" and 30" FRP pipe and 24" PVC ribbed pipe

Let's work together to keep wastewater equipment secure and help make our children – and our communities – safer. Contact your local distributor for details or call Orenco at +1 (541) 459-4449. We're here to help.
